Website: LMTMA.COM

UNSOLICITED MAIL

There have been reports of our customers receiving unsolicited mail concerning the replacement of your water lines. Please note that the Lower Mahanoy Township Municipal Authority has not asked any company to contact our customers. If you have any questions or have been contacted by such a company, please let our office know immediately so that we may check this out.

DAMAGE

Please contact the Authority Office immediately at 570-758-3615 if you discover that damage has occurred on either the water or wastewater system so that the proper repairs can be scheduled. The Authority would like to say thanks to those people who have taken the time to report damage and/or leaks. It is greatly appreciated. Recently there have been two major leaks in the water system that have needed repairs. Repairs were made on Hickory Road and on Strawberry Alley.

POOL FILLING

If a consumer desires to fill or add water (300 gallons or more) to a swimming pool, the consumer must contact the Authority or its operator to obtain the written permission as to the time, date and amount of water which the consumer may use to fill or add to the pool and any restrictions that may be placed upon the water service at that time. If the consumer violates this provision, the water service to the property may immediately be terminated without prior notice and in addition, the violator shall be subject to the payment for the cost for termination or restoration of service, the actual or estimated amount of water used and a penalty of \$300 for damage to the water system. For more information, consumers may either contact the Municipal Office at 758-3615 or the plant operator at 274-0554 or you may send a request through our website under the customer service heading on the left of the webpage.

RESURFACING OR CEMENTING

The Authority would like to remind all its customers that if you are planning to resurface your driveway, cement new sidewalks or any other work that would come in contact with your water or wastewater service lines, you must contact our operator at 274-0554 at least 48 hours in advance of the work to be performed on your property.

Customer Service is Our #1 Priority
