SR 147 WATER MAIN REPLACEMENT

The water main replacement project has been completed at the north end of town and the operators will be flushing hydrants on August 17, 2011 from 9 am till 4 pm. Please see reverse for more details. The Authority would like to thank everyone who was inconvenienced during that time for their cooperation. A section of Route 147 will be closing on June 27, 2011 for PennDot to replace the existing bridge over Dalmatia Creek.

CDBG INCOME SURVEY

The Lower Mahanoy Township Municipal Authority has planned to make improvements to the water system storage facility, serving our residents. The current roof structure is in severely deteriorated condition and requires reconstruction. In an effort to minimize the cost to our residents and users, the Authority has been seeking grant funding that might be used to offset a portion of this cost. One of these grants requires us to gather specific income information for the service area of the Lower Mahanoy Township Municipal Authority. Within the next six weeks, Authority staff will be following up with those households who did not respond or incorrectly completed the survey. **If we cannot complete this survey, the grant money will not be awarded to us and water customers will be facing a substantial increase in their monthly water rental charges.** We thank you for your cooperation and ask that you contact the Authority office if you have questions or concerns regarding the survey.

DAMAGE

Please contact the Authority Office immediately at 570-758-3615 if you discover that damage has occurred on either the water or wastewater system so that the proper repairs can be scheduled. The Authority would like to say thanks to those people who have taken the time to report damage and/or leaks. It is greatly appreciated.

RESURFACING OR CEMENTING

The Authority would like to remind all its customers that if you are planning to resurface your driveway, cement new sidewalks or any other work that would come in contact with your water or wastewater service lines, you must contact our operator at 274-0554 at least 48 hours in advance of the work to be performed on your property.

Customer Service is Our #1 Priority
