STATE ROUTE 147 WATER PROJECT UPDATE

The Authority continues to move forward on the SR 147 water line project. The Authority has been waiting on the Northumberland County Commissioners for funding of this project. The Northumberland County Commissioners has provided some of the needed funding but the Board Members along with their Engineer are actively searching for other funding to reduce the debt burden on the Authority.

LEAD AND COPPER TESTING

For those who have participated in the lead and copper testing this year, the Authority would like to take this opportunity to thank you for your continued cooperation in this mandatory testing by DEP. All of the results were in compliance with the Safe Drinking Water Act.

VENTS & HYDRANTS

It's that time of year when each of our customers should remove the snow when it is blocking sewer vents or fire hydrants. We thank you for your cooperation in this matter.

DAMAGE

Please contact the Authority Office immediately at 570-758-3615 if you discover that damage has occurred on either the water or wastewater system so that the proper repairs can be scheduled. The Authority would like to say thanks to those people who have taken the time to report damage and/or leaks. It is greatly appreciated.

OUTDOOR FAUCETS

The Authority would like to remind everyone to check their outdoor faucets. Freezing temperatures can cause your outdoor faucet to freeze and break causing water loss. Other things that can happen if it is not caught would be cloudy water and reduced pressure along the system for our other customers. Please make sure all outdoor faucets have been winterized.

Customer Service is Our #1 Priority
