STATE ROUTE 147 WATER PROJECT UPDATE

The Authority continues to move forward with preliminary design and permitting on the SR 147 water line replacement project. The Authority has received funding through the Northumberland County Commissioners and the Commonwealth Financing Agency of PA to cover approximately 95% of the project at this point. A letter is included in this mailing to those water customers that will be directly affected by the project.

POTENTIAL LEAK IN WATER SYSTEM

For those customers serviced by the water system, please be alert for any signs of a water leak. If you see anything suspicious please contact the office or operator at 570-274-0554.

VENTS & HYDRANTS

It's that time of year when each of our customers should remove the snow when it is blocking sewer vents or fire hydrants. We thank you for your cooperation in this matter.

DAMAGE

Please contact the Authority Office immediately at 570-758-3615 if you discover that damage has occurred on either the water or wastewater system so that the proper repairs can be scheduled. The Authority would like to say thanks to those people who have taken the time to report damage and/or leaks. It is greatly appreciated.

OUTDOOR FAUCETS

The Authority would like to remind everyone to check their outdoor faucets. Freezing temperatures can cause your outdoor faucet to freeze and break causing water loss. Other things that can happen if it is not caught would be cloudy water and reduced pressure along the system for our other customers. Please make sure all outdoor faucets have been winterized.

Customer Service is Our #1 Priority
