REP. JOANNE STEHR LEGISLATIVE SERVICES

A representative from Rep. Joanne Stehr's office is available in the Authority office on the 2nd and 4th Thursdays of each month from 9:30 am until 12:00 noon. Dates are posted on the Authority's website. Some of the legislative services available through her offices include:

- *Vehicle registration, special tags and license applications.
- *Point of contact for all state agency questions and issues.
- *Filing Property Tax/Rent Rebate and PACE/PACENET applications.
- *Birth certificate applications.
- *Requests for state legislative information and regulations.
- *Citations from the PA House of Representatives for notable local accomplishments and family milestones.
- *Complaints about state road conditions.
- *Tours of the state Capital for individuals or groups.
- *Fishing and hunting information.

To keep up to date with all the latest news, residents can follow her on Facebook at [Facebook.com/RepStehr](https://www.facebook.com/RepStehr). She offers many state forms on her website, RepStehr.com, where residents can also contact her. Residents are encouraged to subscribe to her frequent email updates by registering on her website under the "resources" tab.

The Lower Mahanoy Township Municipal Authority is proud to be able to provide a space for local residents to reach out to their State Representative.

SUNBURY STREET PROJECT

The Lower Mahanoy Township Municipal Authority in conjunction with Herbert, Roland and Grubic, Inc. will be finalizing design plans and putting them out to bid in late November for the Sunbury & Broad Street project.

VENTS & HYDRANTS

It's that time of year, even though the recent temperatures don't feel like it, when we ask each of our customers to remove the snow when it is blocking sewer vents or fire hydrants. We thank you for your cooperation in this matter.

OUTDOOR FAUCETS

Customer Service is Our #1 Priority
After hour contact – 570-274-0554

The Authority would like to remind everyone to check their outdoor faucets. Freezing temperatures can cause your outdoor faucet to freeze and break causing water loss. Other things that can happen if it is not caught would be cloudy water and reduced pressure along the system for our other customers. Please make sure all outdoor faucets have been winterized.

SEWER SYSTEM PROHIBITED WASTES

With winter soon upon us again, please have your HVAC technician inspect your oil tanks for any problems. Home heating fuel is a prohibited waste for the Authority's wastewater system. The homeowner will be held liable for any and all damages pertaining to the clean-up and restart of the plant should their home heating system malfunction causing home heating fuel to be discharged into the wastewater system. Rules and Regulations concerning the discharge of prohibited wastes and unlawful connections may be viewed through the Authority website LMTMA.COM.

PLEASE RETAIN—IMPORTANT

The Authority will be flushing the Water System, weather permitting, on **Wednesday, October 18th from 9:00 AM till 3:00PM.** Please remember to **mark your calendars.**

Alternate date is Thursday, October 19th.

Temporary service disruptions may include discolored water. There is no health hazard associated with the discolored water.

Listed below are several key steps that may lessen some of the potential, temporary disruptions. Please remember these conditions are temporary and may only last an hour or two past the conclusion of the hydrant flushing.

Avoid washing laundry and the use of the dishwasher. This water may contain sediment that may impair the clothes and dish washing process, so avoid washing laundry, especially whites.

Check your faucet screen. Loose particles may become trapped in your faucet from the hydrant flushing, which may affect color and pressures.

Watch for flushing crews. We ask that customers please drive carefully when driving through an area where our crews are present.

We are sorry for any inconvenience this may cause you. Everyone is asked to flush their own lines to help remove any deposits after the flushing is completed. If you experience problems after the flushing is completed, please contact our system operator at (570-274-0554).
