REP. JOANNE STEHR LEGISLATIVE SERVICES

A representative from Rep. Joanne Stehr’s office is available in the Authority office on the 2nd and 4th Thursdays of each month from 9:30 am until 12:00 noon. Dates are posted on the Authority’s website. Some of the legislative services available through her offices include:

- *Vehicle registration, special tags and license applications.
- *Point of contact for all state agency questions and issues.
- *Filing Property Tax/Rent Rebate and PACE/PACENET applications.
- *Birth certificate applications.
- *Requests for state legislative information and regulations.
- *Citations from the PA House of Representatives for notable local accomplishments and family milestones.
- *Complaints about state road conditions.
- *Tours of the state Capital for individuals or groups.
- *Fishing and hunting information.

To keep up to date with all the latest news, residents can follow her on Facebook at [Facebook.com/RepStehr](https://www.facebook.com/RepStehr). She offers many state forms on her website, RepStehr.com, where residents can also contact her. Residents are encouraged to subscribe to her frequent email updates by registering on her website under the “resources” tab.

The Lower Mahanoy Township Municipal Authority is proud to be able to provide a space for local residents to reach out to their State Representative.

SUNBURY STREET PROJECT

The Lower Mahanoy Township Municipal Authority has contracted with Herbert, Roland and Grubic, Inc. to design plans for the Sunbury & Broad Street project.

RESURFACING OR CEMENTING

Reminder: If you plan on having any excavation work done on your property, please have your contractor contact PA One Call @811 and our System operator will be notified by them to locate all underground utilities.

Customer Service is Our #1 Priority

POOL FILLING

If a consumer desires to fill or add water (300 gallons or more) to a swimming pool, the consumer must contact the Authority or its operator to obtain the written permission as to the time, date and amount of water which the consumer may use to fill or add to the pool and any restrictions that may be placed upon the water service at that time. If the consumer violates this provision, the water service to the property may immediately be terminated without prior notice and in addition, the violator shall be subject to the payment for the cost for termination or restoration of service, the actual or estimated amount of water used and a penalty of \$300 for damage to the water system. For more information, consumers may either contact the Municipal Office at 570-758-3615 or the plant operator at 570-274-0554 or you may send a request through our website under the “Services” tab and click Request from the drop down menu on the right top of the webpage. If you are not sure how much water your pool holds, under the “fill a pool” heading on the left side of the screen, there is place to calculate the amount of water needed.

PLEASE RETAIN—IMPORTANT

The Authority will be flushing the Water System, weather permitting, on **Wednesday, July 12th from 9:00 AM till 3:00PM.** Please remember to **mark your calendars.**

Alternate date is Thursday, July 13th.

Temporary service disruptions may include discolored water. There is no health hazard associated with the discolored water.

Listed below are several key steps that may lessen some of the potential, temporary disruptions. Please remember these conditions are temporary and may only last an hour or two past the conclusion of the hydrant flushing.

Avoid washing laundry and the use of the dishwasher. This water may contain sediment that may impair the clothes and dish washing process, so avoid washing laundry, especially whites.

Check your faucet screen. Loose particles may become trapped in your faucet from the hydrant flushing, which may affect color and pressures.

Watch for flushing crews. We ask that customers please drive carefully when driving through an area where our crews are present.

We are sorry for any inconvenience this may cause you. Everyone is asked to flush their own lines to help remove any deposits after the flushing is completed. If you experience problems after the flushing is completed, please contact our system operator at (570-274-0554).
