SUNBURY STREET PROJECT

The Lower Mahanoy Township Municipal Authority would like to thank the customers that were affected by the Sunbury/Broad Street Water Main Replacement project for their patience and cooperation during the project. The project is complete, and the Authority is that much closer to having new water main pipes in the ground for all of its customers. This wouldn't have been possible without a grant from the Commonwealth Financing Agency and the Department of Community and Economic Development and funds from the Lower Mahanoy Township to help with the paving work.

RESURFACING OR CEMENTING

Reminder: If you plan on having any excavation work done on your property, please have your contractor contact PA One Call @811 and our System operator will be notified by them to locate all underground utilities.

POOL FILLING

If a consumer desires to fill or add water (300 gallons or more) to a swimming pool, the consumer must contact the Authority or its operator to obtain the written permission as to the time, date and amount of water which the consumer may use to fill or add to the pool and any restrictions that may be placed upon the water service at that time. If the consumer violates this provision, the water service to the property may immediately be terminated without prior notice and in addition, the violator shall be subject to the payment for the cost for termination or restoration of service, the actual or estimated amount of water used and a penalty of \$300 for damage to the water system. For more information, consumers may either contact the Municipal Office at 570-758-3615 or the plant operator at 570-274-0554 or you may send a request through our website under the "Services" tab and click Request from the drop down menu on the right top of the webpage. If you are not sure how much water your pool holds, under the "fill a pool" heading on the left side of the screen, there is place to calculate the amount of water needed.

Customer Service is Our #1 Priority
After hour contact – 570-274-0554
